

# THE PULASKI GOLD MINING AND MILLING COMPANY.

CAPITAL STOCK \$150,000.  
 PAR VALUE 10 CENTS PER SHARE.  
 TREASURY 500,000 SHARES for DEVELOPMENT ONLY

## INVESTORS

Early in May we called your attention to the fact of the issue of the first block of 100,000 shares of Treasury stock, and that the same was placed on the market

### AT 4 CENTS PER SHARE

We stated that we presented as SURE a paying investment as is offered in any mining district. We called attention to our capitalization, gave our average assays up to that time, and the opinion of our General Manager, W. E. Sanders, who stated, "I consider the Pulaski equal to any property I have ever had anything to do with, and with development believe it will become a mine." The last contract of fifty feet is about completed and although still 200 feet from the main lead, with a depth of thirty-three feet, average assays gave \$1.20, \$1.60, \$1.90, \$2.30, \$1.70, \$2.40, \$3.10, \$2.20, \$4.60 and \$4.00. Assayers—Robbins & Robbins, McEwen & McEwen. The foregoing justify the opinion of the management that we will make a mine of the Pulaski.

A new contract for fifty additional feet will be let in a few days. The mine has been furnished with all necessary equipment up to date. A large number of citizens of Sumpter have visited the property, only one mile from town, sampled the dumps, had their own assays made, and showed their confidence in the outcome by buying blocks of stock.

For further particulars write for our "Epitome of Facts." Stock may be purchased on the installment plan by paying thirty per cent down, balance in two monthly payments. Wishing to establish agencies, those applying for same should send reference with application. All orders for stock should state the amount of shares to be purchased, whether on the installment plan or not, and should be accompanied by bank draft or post office order.
